

# ITA20 - ITA21 – ITA23 : NEW Version 18V

Dear Valued Customer,

In the view of our CONTINUOUS IMPROVEMENT on our tools, we are glad to inform You that our ITA 20 , ITA 21 and ITA 23 are now available in a complete brand new version, in which the tools are equipped with 18V Li-Ion Battery 5Ah and the relevant charger.

We have redesigned the covers and arranged all the needful changes to improve the tool's characteristics and strapping performances.

ITA 20, ITA 21 and ITA 23 are now available in the NEW VERSION ONLY, and the previous version will NOT be available anymore.

Anyway, previous 14.8V Li.Po batteries, chargers and parts will be still available, as spare part only.

Old batteries will not fit in the new tools.

Old tools cannot be used with the new Batteries

## FEATURES & BENEFITS

- ✓ **One battery for ALL tools:**  
The battery used is the same already equipped on ITA EVO (ITA 28/29), ITA 22 and also on ITA 84/85/71
- ✓ **Li-Ion Battery Technology & Compatible to Commercial Battery**
- ✓ **Bigger Capacity -> Higher number of duty cycles per single charge**
- ✓ **Possibility to retrofit**

We are also pleased to confirm You that are now also available the relevant **RETROFIT KIT** for ALL the previous version, hence the «old version tools» can also be updated to the newest version, and equipped with the 18V Li-Ion Battery.

The retrofit Kit will include:

- New Left and Right covers
- New Power card
- Cable kit
- Signal Card
- Led Card
- Screws
